Relais Petite Enfance

Ateliers Nature sur l'alimentation et l'environnement naturel

Publié le 6 janvier 2022

Un nouveau partenariat avec la Réserve Naturelle de la Bassée et 1001 Sillons permet aux enfants et aux assistantes maternelles de découvrir les ressources naturelles proches de chez eux dans le cadre des ateliers du Relai Petite Enfance Bassée-Montois. On bouge, on touche, on observe, on sent, on goûte, on rit, on chante, on montre, on découvre ensemble, on expérimente, on grandit, on partage, pour le plus grand bonheur de tous. Recettes à suivre ...

A venir : Cueillette de début d'été à la ferme de Toussacq et Rencontre des petites bêtes de nos mares et de nos prairies"
